

SAURABH MISHRA

Mumbai, India • +91 7387628021 • saurshra.dev83@gmail.com

GitHub: github.com/saurshra • LinkedIn: linkedin.com/in/saurshra

Full-stack developer skilled in building MERN applications with strong experience in API development, authentication (JWT, OAuth, OTP), state management, and responsive UI design. Developed and deployed multiple real-world scalable and decentralized projects. Looking to contribute to engineering teams with a strong problem-solving mindset and hands-on development experience.

TECHNICAL SKILLS

Language: JavaScript

Frontend: React.js, Next.js, HTML, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Databases: MongoDB, SQL

Tools & Platforms: Git, GitHub, Postman, Render, Vercel, Resend

Concepts: REST APIs, Authentication (JWT/OTP), MVC Architecture, State Management, Deployment

PROJECTS

● VegaSports– Turf Booking Platform

Live: <https://vegasports.in/>

Tech: MERN, JWT, Google OAuth 2.0, OTP Auth, Resend, Vercel, Render

- Developed a full-stack turf booking platform with separate User, Host, and Admin panels, enabling slot booking, turf management, and platform control.
- Built RESTful APIs using Node.js and Express.js with MongoDB for efficient data handling, including booking management and user operations.
- Integrated online payment system (Razorpay) and deployed the application using Render/Vercel, ensuring smooth transactions and live accessibility.

● EventHub – Event Management Web App

Live: <https://eventhub-o45b.onrender.com/>

Tech: MERN, JWT, Google OAuth 2.0, OTP Auth, Render

- Built a MERN-based platform for discovering and registering events.
- Implemented secure authentication using JWT, Google OAuth 2.0, and OTP verification.
- Developed an admin dashboard for event creation and participant management.
- Designed a fully responsive UI and deployed the application on Render.

● TrustFlow – Certificate Verification (Blockchain MVP)

Live: <https://blockchain-t2z6.onrender.com/>

Tech: MERN, Ethereum (Ethers.js), IPFS, MetaMask

- Built an MVP for decentralized certificate verification using IPFS storage and on-chain hashing.
- Created admin/user dashboards with document upload, verification workflow, and OTP-based authentication

● Cryptocurrency Dashboard

Live: <https://saurshra.github.io/Cryptocurrency/>

Tech: React.js, Tailwind

- Developed a real-time crypto price dashboard using CoinGecko API and responsive UI.

● UrbanNest – Property Listing Platform

Github: <https://github.com/saurshra/UrbanNest/>

Tech: MERN

- Developed a full-stack property listing platform with user authentication and dynamic property search.
- Implemented secure signup/login, API integration, and real-time data handling.

● Portfolio Website

Live: <https://saurshra.github.io/dev-portfolio/>

Tech: React.js ,Tailwind Css

- Built a simple portfolio website to showcase projects, achievements, and skills with a modern, responsive UI

EXPERIENCE

Frontend Developer Intern – Web Professionals

Dec 2025 – Present

- Developed and optimized React and Next.js applications with a focus on responsive UI, state management, and API integration.
- Implemented authentication, authorization, and performance improvements across client projects.

EDUCATION

Bachelor of Computer Engineering

Universal College of Engineering, Vasai

Expected Graduation: 2026

Higher Secondary Education (HSC)

Thomas Baptista Junior College

Percentage: 86.67 %

Secondary School Certificate (SSC)

Rajiv Gandhi High School

Percentage: 83.00 %
